# Asker International School

was established in 2012 and opened its doors for the first time to students and parents in August 2013.

Asker International School is established as a foundation and as such has limited income from state and the parent body. As such it is dependant on corporate sponsorship to help the school expand and grow into the institute it aspires to become. The following is a list of categories we have established for our sponsors.

## Silver – Donations of up to 100 000NOK

- Web page exposure with information detailing what contribution has been made and how it has been used, with the company logo displayed on our web page and hyperlinked back to the company's official site.
- Facebook posting – thanks posted on our facebook page specifying how the contribution was used.
- Invitation to major school events.

## Gold – Donations up to 200 000NOK

- Company logo decal in the reception of the school per annum sponsorship.
- Web page exposure with information detailing what contribution has been made and how it has been used, with the company logo displayed on our web page and hyperlinked back to the company's official site.
- Facebook posting – thanks posted on our facebook page specifying how the contribution was used.
- Invitation to major school events.

## Platinum – Donations greater than 200 000NOK

- Company logo decal in the reception of the school per annum sponsorship.
- Classroom or other area named after the company or company designate – mounted sign in the designated area per year sponsorship.
- Web page exposure with information detailing what contribution has been made and how it has been used, with the company logo displayed on our web page and hyperlinked back to the company's official site.
- Facebook posting – thanks posted on our facebook page specifying how the contribution was used.
- Invitation to major school events.

INTERNATIONAL SCHOOL

### **Annual Renewal**

When considering sponsorship of Asker International School, a longer term commitment would be greatly appreciated. If a company is in a position to commit funds over a 2-3 year period this in turn provides us with a clearer budgetary overview when planning the strategic development of the school.

### **Specific Sponsorship Requirement/Request**

If you have a specific request for your investment, please contact the principal who will gladly discuss the proposal.

### **Non-financial Support of the School**

As the school is developing, there is much room for support in all areas and we greatly appreciate all types of support from local industry, such as:

- Guest Speakers
- Site Visits
- Recycled Furniture
- Recycled Stock (folders and such materials)
- Recycled IT equipment

And more...

### Your contribution can help:

- Develop key school facilities
- Provide further teacher training in specialist areas
- Purchase text books and materials
- Enrich learning through field trips

### A 100 000NOK investment could secure:

- A bank of laptops or iPads for the students to enrich their digital learning
- A significant increase in resources for our physical or digital library
- Five school day-trips to a museum or other area (cost of transport, entrance and other expenses)

### A 500 000NOK investment could secure:

- The necessary long-term requirement for science facilities
- Significant development in playground and/or sports facilities.

### For further information please contact:
